Welcome to the Airbnb New York City Data Dashboard!

Explore the vibrant and dynamic world of Airbnb listings across New York City. This interactive dashboard provides valuable insights into pricing trends, neighborhood popularity, host activity, customer engagement, and more.

What You Can Discover:

- Average Prices across different neighborhoods and room types
- Host Activity & Listings distribution
- Customer Engagement through reviews and ratings
- Trends in Booking Preferences like cancellation policies and instant booking availability
- Comparison of Neighborhoods to identify the best areas for Airbnb stays

Whether you're a traveler, host, or data enthusiast, this dashboard helps you understand how Airbnb operates in one of the world's most exciting cities.
